

## **AWS National Registry for Certified Welder Program**

Thank you for your inquiry concerning the AWS National Registry for Certified Welders. Listed for your review are the following items:

- QC7-93, Standard for AWS Certified Welders
- QC7-93, Supplement C Performance Qualification Sheet Metal Test
- QC7-93, Supplement F Chemical Plant & Petroleum Refinery Piping
- QC7-93, Supplement G AWS Performance Qualification Test
- Application for AWS Certified Welders
- ATF Master Facility List
- Guide to Interpreting Abbreviations on Certified Welder Card
- Maintenance of AWS National Welder Certification
- AWS Certified Welder Brochure

To successfully participate in this program, a welder must follow these instructions:

- Read the QC7 Standard for AWS Certified Welders and its supplements
- Contact the Accredited Test Facility representative nearest you to register for the test (refer to enclosed ATF Master Facility List)
- Take your QC7 Standard with you at the time of the test.

Once you have passed the test, the Accredited Test Facility will forward your application, qualifications test record and payment of \$30 to the American Welding Society.

After your application has been processed by the AWS Certification Business Unit, you will receive your AWS Certified Welder Wallet Card along with the renewal information.

Should you need further assistance, please feel free to contact the Certification Business Unit directly at: 1-800-443-9353, ext. 476 or visit our website at <http://www.aws.org>.

Thank you for your interest in the American Welding Society.
